

The Parkside Hotel & Spa prides itself on being a sustainable, environmentally-friendly hotel. Thanks to **Synergy Enterprises**, we now have a full sustainability report that proves how we're doing and how we can further build a greener environment for our guests and staff.

The Parkside Hotel & Spa's greenhouse gas emissions are significantly lower than the average hotel in Victoria at 495.6 tCO2e!

The hotel is furnished by fabric and décor made from low-emitting, non-toxic and recycled materials.

Natural, long-lasting flooring and counters are made from materials such as limestone, slate and granite.

During The Parkside Hotel's construction, waste and materials were diverted from landfills at a rate of 92.3%.

Stormwater collection and grey-water system reduces the amount of water needed for irrigation and water features.
