

....Where Mediterranean meets Africa....

HAPPY!!!

Last year we were a bit worried as there were much less whales in our beautiful bay than in previous years. Everyone was talking about it and no one really had an explanation. This year, the season has just started and there are **lots of whales!** What's awesome is that several boat trips had 3 different species on ONE boat trip. The **Southern Right** -, **Humpback**- and the **Bryde whale**. **SUPER!!!**

Let's Go Touring!

Last month we spoke about **QUESTHOUSE BELLAMENTE** being able to offer fantastic day trips in the **Overberg** area. Our 4x4 car arrived and we made a test drive through our spectacular nature. We used off the beaten track roads instead of the normal infrastructure and we were pleasantly surprised by the 'bokkies', baboons and birds which forced us to stop frequently. Let Frank (who speaks Dutch and German!!!) take you or your clients on a half- or full day trip and enjoy the nature in a relaxed way. Besides that, your glass of wine during lunch or at one of the wine tasting farms will definitely taste better knowing that you do not have to drive! Ask Rita for availability and rates for a tailor made day trip to suite your needs.

Let's go touring!!

Cliff path hiking

Our guests enjoy the stunning walk along the Atlantic Ocean cliff path. Not only because of the whales you might see, but the **brehtaking views, flora and fauna**. Besides that the path is well maintained, nature maintains itself and to be honest, we can learn from nature! The **caves** during low tide are absolutely worth visiting. De Kelders is just **BEAUTIFUL!!!**
