### WHAT TO DO IN MENDOZA REGION

#### 1- WINE & ANDES

#### **WINE ROUTE: How to tour wineries in Mendoza?**

*Adalgisa Wine Experience*  
ARGENTINA AUTÉNTICA

**The Central Valley** is an oasis created by the irrigation of the Mendoza River. It comprises the Lujan de Cuyo and Maipú counties. Here is where the mendocinean wine production started at the beginning of the last century, so you will find more traditional wineries with centenary vineyards and a magnificent view of the 2.000ft Cordon del Plata range in the distance. This is the area where Finca Adalgisa is located. It takes 10 to 25 minutes to get to some of the wineries.

Situated along the Tunuyán River, **The Uco Valley** is 100km southwest from Mendoza city. It is closer to the mountains - thanks to the altitude, the soil and the source of fresh water coming directly from the Andes, this wine region is one of the most important wine-producing regions in the world. The industry started in the area not long ago, so the wineries here are generally modern buildings with impressive architecture, and the mountain are always surrounding the vineyards.

The best way to visit the Uco Valley's best wineries is to rent a car, or if you want to swallow your wine samples instead of spitting them into the bucket, **hire a driver to take you around.**

We recommend visiting 3 wineries in the Central Valley or the Uco Valley. This would be an ideal day. Some wineries offer only tasting and touring around the vineyard, but there are others where you can also have lunch. This 'wine route', as we like to call it, is not only concerned with you trying our well-awarded Malbec, but also experiences the nature and beauty of its production, the incredible settings and the people involved in it.

It is compulsory to make reservations in advance. Wineries need to know you are coming. They won't let you in without a prior appointment. The Finca's concierge desk would be glad to assist you making all these appointments for you. Let us know whether there are some wineries you would like to visit, or just ask us for recommendations according to your interests and taste.

You can also visit the valleys **renting a car** with a local company. Once more, the concierge desk will assist you making the reservations for the wineries you'd like to visit.

There's another option - visiting wineries in a **small group tour.**

If you feel a little more adventurous, you can bike to the wineries! There is a **bike tour** company that provides really comfortable bikes for you to tour either the Central or the Uco valleys. They'll pick you up from the hotel and take you to the area you chose. They also carry the wine you would buy at each winery and bring it to the hotel.

Last but not least, there are three wineries within walking or cycling distance from Finca Adalgisa. As a courtesy, we offer our guests some bikes. You can use them to bike around the village and to these three nearby wineries. They are comfortable bikes for a short trip. Though, for longer trips we suggest you booking the ones Baccus provides. The wineries near the Hotel are: Clos de Chacras, Alta Vista and Pulmary.

Note:  
For domestic flights, you can get into the plane with your wine.  
Shipping wine to most parts of the world is possible, though it's expensive.  
We can provide you with styrofoam boxes to safely carry your wine with you.

**2 – OUTDOOR IN THE ANDES**

Visiting the Andes is another option you should consider once you are in Mendoza. We can offer you some guided activities in which you will find yourself alone in the middle of nowhere, breathing fresh air only, and filling your eyes with really spectacular sights. **You can trek** many of the hills in the Andes or **go horseback riding** in the traditional gaucho way at Quebrada del Cóndor between the Cordón del Plata Range. In both activities, you will find yourself immersed in the natural environment of the Andes Range, and if you are lucky you will see some Guanacos, and even Condors! There's opportunities for **fly fishing** the small streams coming from the highest peaks of the Andes. Trout and brooks in their natural environments are a must if you want something special.

**3- GOLF**

Also, Mendoza's plateaus and elevations make it a great landscape for golf. Our concierge can arrange the most unforgettable golf experience in Mendoza. Come explore a championship course surrounded by the Andes!

**4-SPA**

Finally, just to make your whole body relax, and boost your energies, there's a Hamam Spa at the Hotel Entrecielos. With their classic hamam circuit, plus any of the massages they offer, you can overcome the tiredness of your trip and be ready for your next destination.

**5- ART**

Visit local artists and get to know the creative side of Mendoza. Meet the painters or plastic artist and seeing their work will contribute to your understanding of the culture of Mendoza
