Beverage

There are many ways to provide beverage for your guests during the celebration. The best idea is to chat with our team about what options suit you, your budget and your style of wedding. There is a lot to consider when making your wedding plans, so we have included our general prices and what we have found is the most common and cost effective way to provide those celebration drinks on your day.

Table Wine

This is the most popular choice, a bottle of red and a bottle of white on each table for your guests to share. This is \$70.00 per table. The great thing with this option is we will ensure that every drop is used by your guests on the night of your celebration. If it isn't, you will either be refunded or the price added to any bar tab you may have.

Bar Tab

This is controlled by you. A certain amount is put on the bar prior to your wedding celebration and you select what it is that you would like your guests to have on your tab. We will require a contact person who we will notify as the tab reaches its limit. It can then be extended or stopped.

Suppliers

We are able to suggest some local companies available for your wedding such as photographers, celebrants, decorators, hairdressers and DJ's.
