

Native Avifauna and Animal Species

Byblos Resort & Casino wants to help guests fully experience Costa Rica's biodiversity. With so many opportunities to see animals, birds, butterflies and so many other exotic species, the grounds of Byblos is a great place to relax, but keep your eyes open! With the incredible variety of wildlife that chooses our property as their nature corridor, our guests truly experience the benefits of an intimate jungle setting. To give you a better idea of some of these incredible wonders to watch for, Byblos Resort & Casino has compiled an easy reference list of the most commonly seen birds and animals for the Manuel Antonio and Damas Island Area:
