TIMESUP!

North America prior to illegal immigration

NO DARKIES SIT IN THIS SECTION OF THE BUS

With special guest Mr. Orlando S. Herrera Jr., MSA, CPS

A picture is worth a thousand words when a black person dares to sit in the front section of a bus that Rosa Parks made famous. This exhibit explores legal rights to refuse specific colored humans from being in certain areas of America. December 1, 2018, 7 pm.

MR. PRESIDENT, TIMESUP!

With special guest Mr. Paul Brandus, BA, of West Wing Reports and the White House Press Pool This exhibit delves into the current TIMESUP movement by exposing President's sexual relations in White House closets, libraries, and in broad daylight in Central Park. The ultimate recourse being DNA proof, the court of public opinion and criminal arrest in the future.

CELEBRATING THE RIPPING DOWN OF STATUES IN AMERICA

With Martin CJ Mongiello, BS, MBA and assistance from the American Revolutionary War Living History Center

Ripping down statues in America is nothing new, it may have first started in New York in 1776. One new technique being used to avoid that is bringing temporary statues and exhibits into the American Legion World Series to celebrate Confederate weapons of death.

A PSYCHO IN THE WHITE HOUSE

Exploring mental illness in the First Family and Presidency is not new. From meetings with Ouija boards to those who channel spirits during supposed seances at Camp David, what is real and false will be shared for the first time.

HATE FOR IMMIGRANTS

From American Indians first walking here in 50,000 B.C. to Muslims, Mexicans and every other group they try to teach you to hate, this exhibit will examine our past, present, and possible future based on President's actions.

704-937-2940 Museum guided tours are Thursday through Sunday at 9:30 AM
Tablet tours are Wednesday through Sunday from 11 to 5 PM
